The mailing address you list needs to be valid for at least 3 months; if you are unsure of your living plans, please consider having a trusted friend/family member serve as the recipient for your mail by listing their address and name as “In Care Of Name.”

It is highly recommended that you add your full name to the physical box where the mail will be delivered (including if you will use someone else’s address) to avoid potential undeliverable mail issues with USPS.

When you apply for STEM OPT about 1 year after graduation, you will use eligibility code **c3 C** and fill in these details.

You can handwrite your full major name in if it doesn’t fit.

The rest of this column can be left blank.

The eligibility code FOR ALL STUDENTS applying for their first year of OPT (even if you have a STEM major) is **c3 B**. You should not fill out the STEM OPT section at this time.
This is the most common reason for applications to be rejected. Please sign here in **black ink** after you have printed the form. Do not use an electronic signature, and do not use any other color pen.
